

## TeraGanix Pro™ Poultry

### TeraGanix Pro™ Program

TeraGanix Pro™ is our line of liquid probiotics for use in livestock operations. Using 35 years of supporting research on Effective Microorganism Technology® in its formulation and application. Our products contain only naturally-occurring live microorganisms from three geniuses and all their metabolites. All products are completely safe for humans, animals and the environment. These metabolites include dozens of enzymes, trace minerals, amino acids, and vitamins that improve livestock operations.

#### Ps300™: Direct Fed Microbial for Poultry

Ps300™ is our liquid direct feed microbial probiotic for use in livestock drinking water and as a fermentation inoculant for feeds.

#### Lt1000™: Poultry Litter Treatment

Lt1000™ is a liquid probiotic solution for poultry litter and fogging systems. Helps establish a pleasant environment and create safer lees or decreased levels of ammonia, hydrogen sulfide, and Salmonella.

### Suggested Application

#### Ps300™: Direct Fed Microbial for Poultry

**DRINKING WATER:** add to drinking water continuously at a 1:2000 ratio. In a 1:128 medicator, this will equal 1 quart (946 mL) Ps300™ to 5 gallons of water.

**FEED:** add 1 oz (30 mL) per 7.5 lbs ration at every feeding. Bulk mixing; 1 gal (3.8 L) per 1000 lbs.

#### Lt1000™: Poultry Litter Treatment

**LITTER TREATMENT:** Once per flock 1 to 2 gallons per 1000 sq ft.

**FOGGING SYSTEM:** Cycling 1 minute on and 2 to 5 minutes off at a rate of 1:1000.

### Ingredients

Purified Water, Molasses,

Liquid Lactobacillus casei fermentation product,

Liquid Lactobacillus plantarum fermentation product,

Liquid Lactobacillus delbrueckii fermentation product

Liquid Rhodopseudomonas palustris fermentation product

Yeast Culture (Saccharomyces cerevisiae)
